Subject: RE: FYI- Question on status of Powertech's Dewey-Burdock project from NRC

Hi all –

I think it's fine to say we don't have a timeline yet and are still working through comments received, as well as consultation, NHPA, and ESA. I assume he knows we need to complete the NHPA process before we can move forward, but it might be worth mention to make sure we all have the same understanding.

Valois – I know you were looking for a way to be able to start working with someone at NRC- could you use this contact to start those conversations?

Happy to discuss more at our next meeting. I don't see anything on my calendar – Valois, can you please set those up?
Thanks!
Sarah

Thanks Valois: if Ron does not need an answer immediately, should we briefly discuss this at our next DB meeting with Sarah?

Subject: Question on status of Powertech's Dewey-Burdock project

Good morning, Valois.

It's been a while since we spoke regarding EPA's work on the Dewey-Burdock Class III and Class V injection well draft area permits and proposed aquifer exemption.

Is there anything you can share with me regarding EPA's path forward and possible timeframes for decisions on the above actions?

Thank you.

Ron
